I'm obviously willing to go along with whatever meeting format you all want, but I do think there is merit in (1) being consistent in how we roll this out to the various stakeholder groups, and (2) presenting the regulatory background drivers and the universe of sources out there so that is understood by all.

Thanks,

Cindy Beeler

Hi Cindy,

My understanding is that we are planning to do a conference call, not a webinar. When I talked with Brock yesterday, he agreed that UDAQ should be on the call. Please let me know what dates work with the Commissioners.

Thanks,

Jody

I think we need UDAQ on this webinar offering a clear, and specific, explanation of their

current requirements on reducing emissions from minor sources. The 2nd selling point on this "FIP", after protecting human health, is to create a level playing field in the Uinta Basin.

I was going to check Bills schedule first as he has a lot of background in UN air issues. See his inquiry below about who else to include - please advise.

Thanks,

Hi Cindy,

It's been about two weeks since we last communicated. I wanted to follow up with you on the logistics for a meeting on the air quality issues.

We would like to include Duchesne County, USU, Wasatch County and SITLA. Other than our federal partners these organizations have been most involved with air issues and studies.

Let me know how would you like to proceed with setting up a meeting or conference call/video conference.

Thanks Cindy.

Bill -

Thank you for your response. The question you raised has come up several times so I have asked our Regional offices to develop a response. Once I hear back from them, which I expect will be within the next couple of weeks, I will follow up with you.

We look forward to working with you,

Cindy Beeler

Thank you Cindy. Could you clarify for me whether the same issues apply for the U & O Reservation as for non-reservation "Indian Country"?

Hi Bill -

Thank you very much for an informative Energy Summit - you had a great turnout and I learned a lot from the variety of presenters you all lined up.

EPA, UDAQ and the Tribe had a meeting with industry on 9/3 to discuss EPA's consideration of developing an Indian country-specific rulemaking on the Uinta and Ouray Indian Reservation. We will be doing the same with the environmental NGOs and other advocates on 9/17.

We have offered a call or meeting with the Federal Land Managers too. And we would like to organize a separate call or meeting with you and any local counterparts who you think should be included. So let's start figuring out a time to meet via phone/webinar or in person.

Congratulations on your recent appoint to the Utah Air Quality Board!
We look forward to working with you, Bill.

Good Morning Cindy,

Do you have any more information about a possible meeting at your office this week? If there is to be a meeting I would like to make arrangements sooner rather than later.
